## "Mendel's Make" Wrappers, 79c.

Extraordinary Values at . . . Qualities Sold Regularly at \$1.50 and \$2.00.

This sale of the celebrated "Mendel's Make" Wrappers is proving the biggest kind of a success. It started with a rush yesterday—and the crowds of buyers have been coming in a steady stream ever since. 250 dozen of these justly renowned garments were closed out from the maker—the factory surplus and "seconds"—and are being distributed at 79c. each—a price that hardly represents the cost of materials and making.

"Mendel's make" Wrappers are unquestionably the best known. Besides being distinguished for unequalled style and superior workmanship, they are sanitariously made. No "Mendel's make" garment is allowed to leave the workrooms unless it is absolutely without a flaw. Garments that show the slightest imperfection—such as a tiny oil spot, uneven stitching or other trivial fault—are classed as "seconds."

They are fashioned with all the care and attention to detail that characterizes all "Mendel's make" garments. Materials consist of fine quality Percales and Flannelettes, in a wide range of colors and neat designs, including gray, navy, garnet and black grounds with stripes, figures and other effects, also plain black.

Every Wrapper is finished with fitted dressmaker lining, and is cut extra full over the hips, and made with deep bounce skirts.

All sizes up to 44 and 46—good news to women who have trouble in being fitted in ordinary Wrappers. Values actually worth up to two dollars, tomorrow for 79c.

## Finest Furs at 1/2 Price.

The demand for Furs made by the present cold snap will renew interest in this extraordinary sale of magnificent Furs at half price and thereabouts. Ever since the sale started we have been establishing new selling records. The values have been the wonder of both customers and merchants.

The continued mild weather of early autumn caused one of the most prominent manufacturing furriers in New York City to dispose of his entire stock to us at about 50 cents on the dollar. It is this fortunate circumstance that makes such sensational selling possible. Make the rounds of the stores—critically inspect the values offered, and then come here and you'll quickly decide that such values as we are offering have never been duplicated.
